

**We Create** and **Please The Bees** are in the early stages of a project that will transform a small patch of public land at the foot of the Honeybourne Line embankment to create an improved habitat for pollinators. We have some ideas about how we'd like to replant the site and we would like to establish a couple of beehives, creating a space to observe nature in action.

We're opening up the site on **World Bee Day, Monday 20 May, 2pm-5pm** for chats and introductions. Whether you'd like to hear more or to help us reimagine the site, or would like to learn about beekeeping, we would love to hear your thoughts on the project, so please drop by or get in touch.

Find us with *what3words* **tune.punchy.last** or look out for the gate by the bridge between Folly Lane and the Honeybourne Line entrance on St Paul's Road (opposite Carlton Place).

**OPEN DAY 20 MAY 2pm-5pm**
